Curriculum: Ray Rozycki, 888-891-9115

Information Technology: Matthew Abel, 888-891-9115

Provide a short summary of the types of services your company provides (100 words or less):

Provost Systems suite of software allows your organization's administrative processes to be more efficient by eliminating redundant manual tasks. Provost Systems has evolved into a software company that focuses on creating administrative efficiencies within K-12 organizations. Our systems can integrate with any course management system by using a multi-tenant architecture to create a comprehensive CMS/SIS solution.

Our solutions packages include out-of-the-box suite software applications, custom designed solutions, and development and consulting services.

We fit our solutions to your school's processes, not the other way around. The Provost Systems product suite is anchored by the student information system, Provost Virtual Student, which has been architected from the ground up in close association with charter schools, making it very flexible and scalable. Common data elements across your organization can be shared while different workflows for departments or schools can be maintained. Other products include an online gradebook, attendance tracking system, curriculum mapping tool, and family portal.

Briefly describe your experience with charter schools, including a list of any charter schools in Utah you have provided services for:

Provost Systems software solutions are currently running successfully in the largest cyber charter schools in Pennsylvania:

PA Cyber Charter School (8,000 students)

PA Virtual Charter School (4,000 students)

Blendedschools.net (40,000 students)

as well as some of the smallest... PALO (Pennsylvania Learners Online, 600 students).

Our products have assisted these schools with exponential growth.

Please list any other educational entities you have worked for:

Metropolitan Community College

Grand Rapids Community College

Riverside School District

Greenbush (SE Kansas ESC)

Blendedschools.net

PA Cyber Charter School
